

Minutes of Meeting: System Documentation Updates, Workload Distribution, and Strategy Alignment

Date: July 28, 2026

Time: 10:00 AM - 10:55 AM

Location: Online

Presiding: Team

Attendees: Rico Albania, Joshmar Clavero, Khalil Galido, Joshua Concepcion

1. System Documentation s Paper Review

- **Diagrams s Use Cases:** The team reviewed the existing diagrams and use cases to prepare necessary updates. It was confirmed that all team members will collaborate on updating the use case diagrams, backlog/user stories, and use case descriptions.
- **Paper Alignment:** A review of the previous project paper will be conducted to ensure all new updates and changes are accurately integrated into the updated version.
- **User Stories Validation:** Current user stories were confirmed to be in good shape and ready for implementation/documentation.

2. Strategy s Technical Decisions

- **Monetization s Payment Gateways:** The team discussed whether to proceed with integrating monetization and payment gateways into the project.
- **AI Architecture Direction:** Architectural discussions were held regarding whether to utilize existing pre-made AI tools or train a custom AI model for the platform.

3. Adviser Consultation s Next Steps

- **Adviser Input:** The team agreed to present the current work and documentation updates to the project adviser to gather inputs and alignment ideas before finalizing upcoming steps.
