

Minutes of Meeting: C4 Diagram Refinement, Use Case Expansion, and Backend Framework Exploration

Date: August 7, 2026

Time: 10:30 AM – 11:30 AM

Location: Online

Presiding: Team

Attendees: Joshmar Clavero, Joshua Concepcion, Rei Khalil Galido, Roman Rico Albania (Secretary)

1. Architecture & System Modeling

- **C4 Diagram Reformation:** The team reviewed and initiated adjustments to restructure the existing C4 model architecture.
- **C4 Diagram Enhancement:** Further refinements were made to enhance the clarity, depth, and technical representation of the system's software architecture.

2. Requirements & Specification Expansion

- **Use Case Modules:** Detailed module breakdowns were established for the Use Case Diagram to provide deeper operational context and complete functionality mapping.

3. Technical Evaluation

- **Django Framework Exploration:** The team agreed to evaluate and experiment with Django (a Python web framework) for potential integration into the backend architecture.

Action Items & Deliverables

Task	Assigned To
Finalize reformed and enhanced C4 architecture diagrams	Team
Write detailed module specifications corresponding to the Use Case Diagram	Team
Explore more details about Django for the backend	Team
