

Minutes of Meeting: Swimlane Diagrams, ERD Construction, Requirements Revisions, and C4 Review

Date: September 14, 2026

Time: 11:25 AM - 12:10 AM

Location: Online

Presiding: Team

Attendees: Joshmar Clavero, Joshua Concepcion, Rei Khalil Galido, Roman Rico Albania

1. Process & Database Architecture Modeling

- **Swimlane Diagrams:** The team initiated the design and mapping of swimlane activity diagrams to visualize cross-functional process workflows across personas.
- **Entity Relationship Diagram (ERD):** Work commenced on constructing the high-level ERD to define core system entities and database relationships.
- **C4 Diagrams Review:** A comprehensive review of the updated C4 architecture diagrams (Context, Container, and Component levels) was conducted to verify structural accuracy.

2. Requirements & Research Documentation Updates

- **Use Case Verification:** The team reviewed the updated use case diagrams and fully dressed use case specifications to ensure all feedback and system flows remain synchronized.
- **Manuscript Revisions:** Updates were applied to the main project paper to integrate recent architectural adjustments and alignment fixes.

Action Items & Deliverables

Task	Assigned To
Complete initial drafts of the swimlane activity diagrams	Team
Finalize the high-level ERD architecture	Team
Lock updated C4 architecture diagrams following team review	Team
Update corresponding sections in the research paper to reflect current system specifications	Team
